

Style Guide

andalusia.design

Andalusia is a specialty
ceilings and walls
manufacturer based in
Austin, TX, USA

We combine parametric
design with digital
fabrication to deliver
high-design systems
with unparalleled
flexibility, speed and
efficiency

Vertically-integrated
production facility in
Austin.

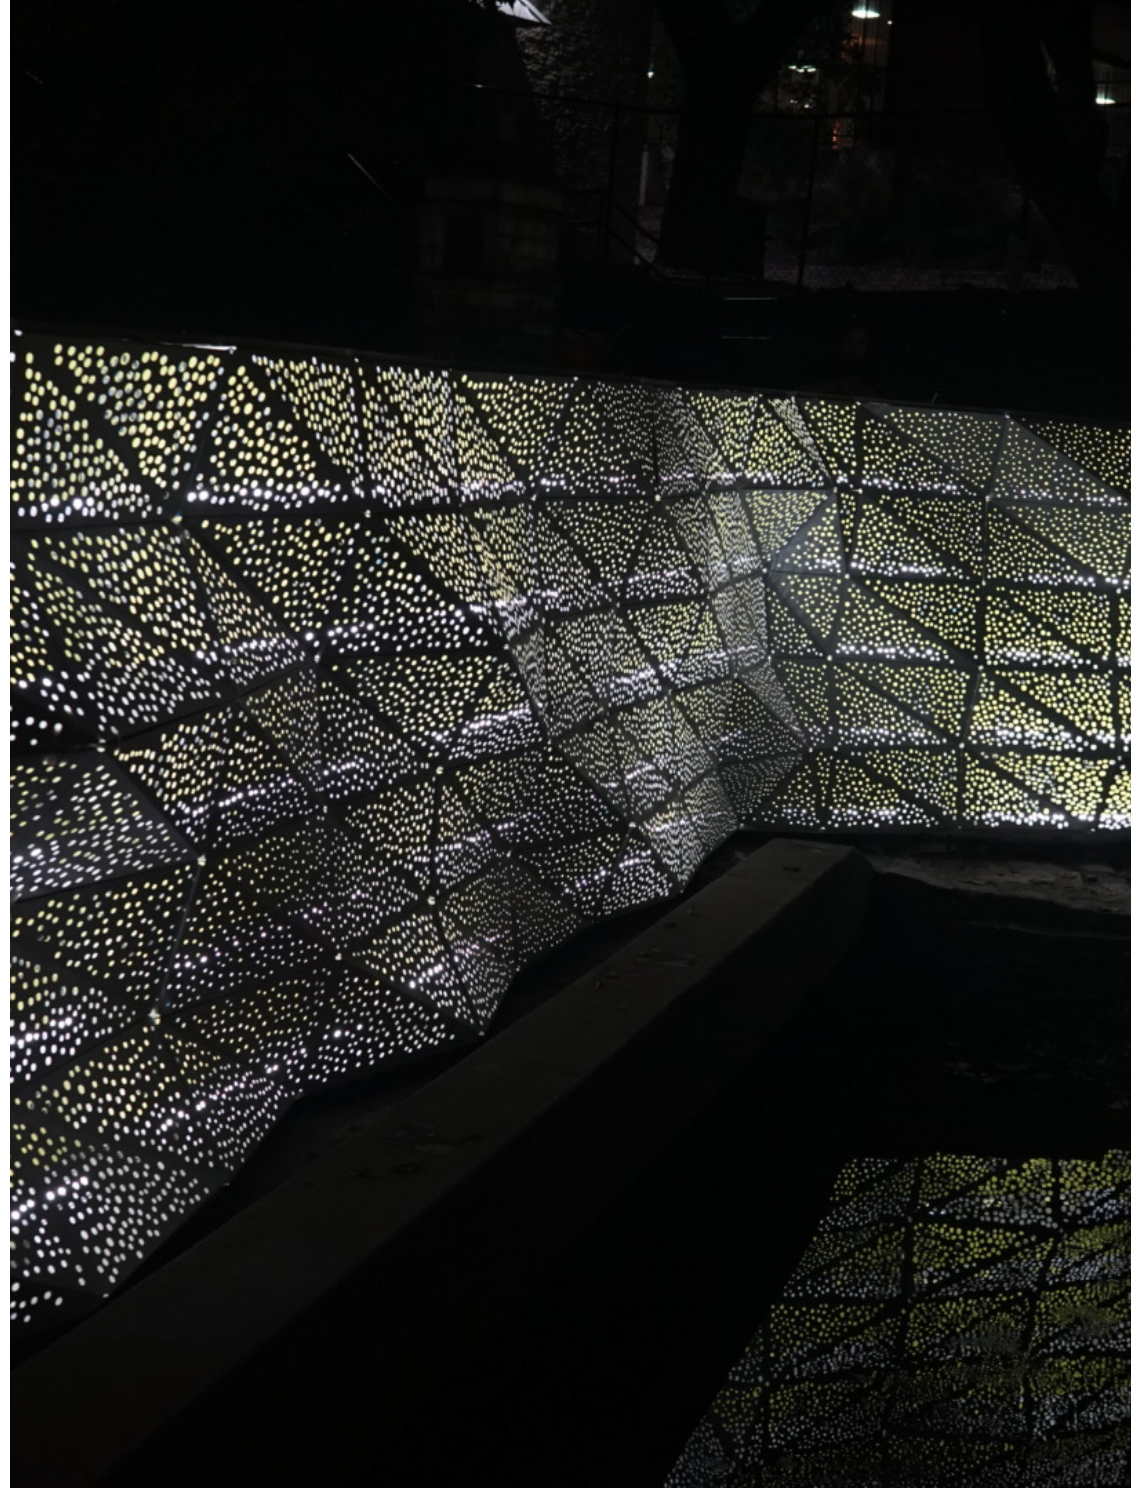

Specialize in wood and
metal, but can integrate
felt, acrylic, preserved
moss and other materials.

Provide backlighting and
accent lighting to enhance
your systems.

Products are designed parametrically to create systems that can be modified in real-time.

We will work with you from concept through delivery.

The result = fast lead times, competitive prices and the highest finish quality.

- ❖ Physical material samples
- ❖ Spec Guides

Project Services & Support

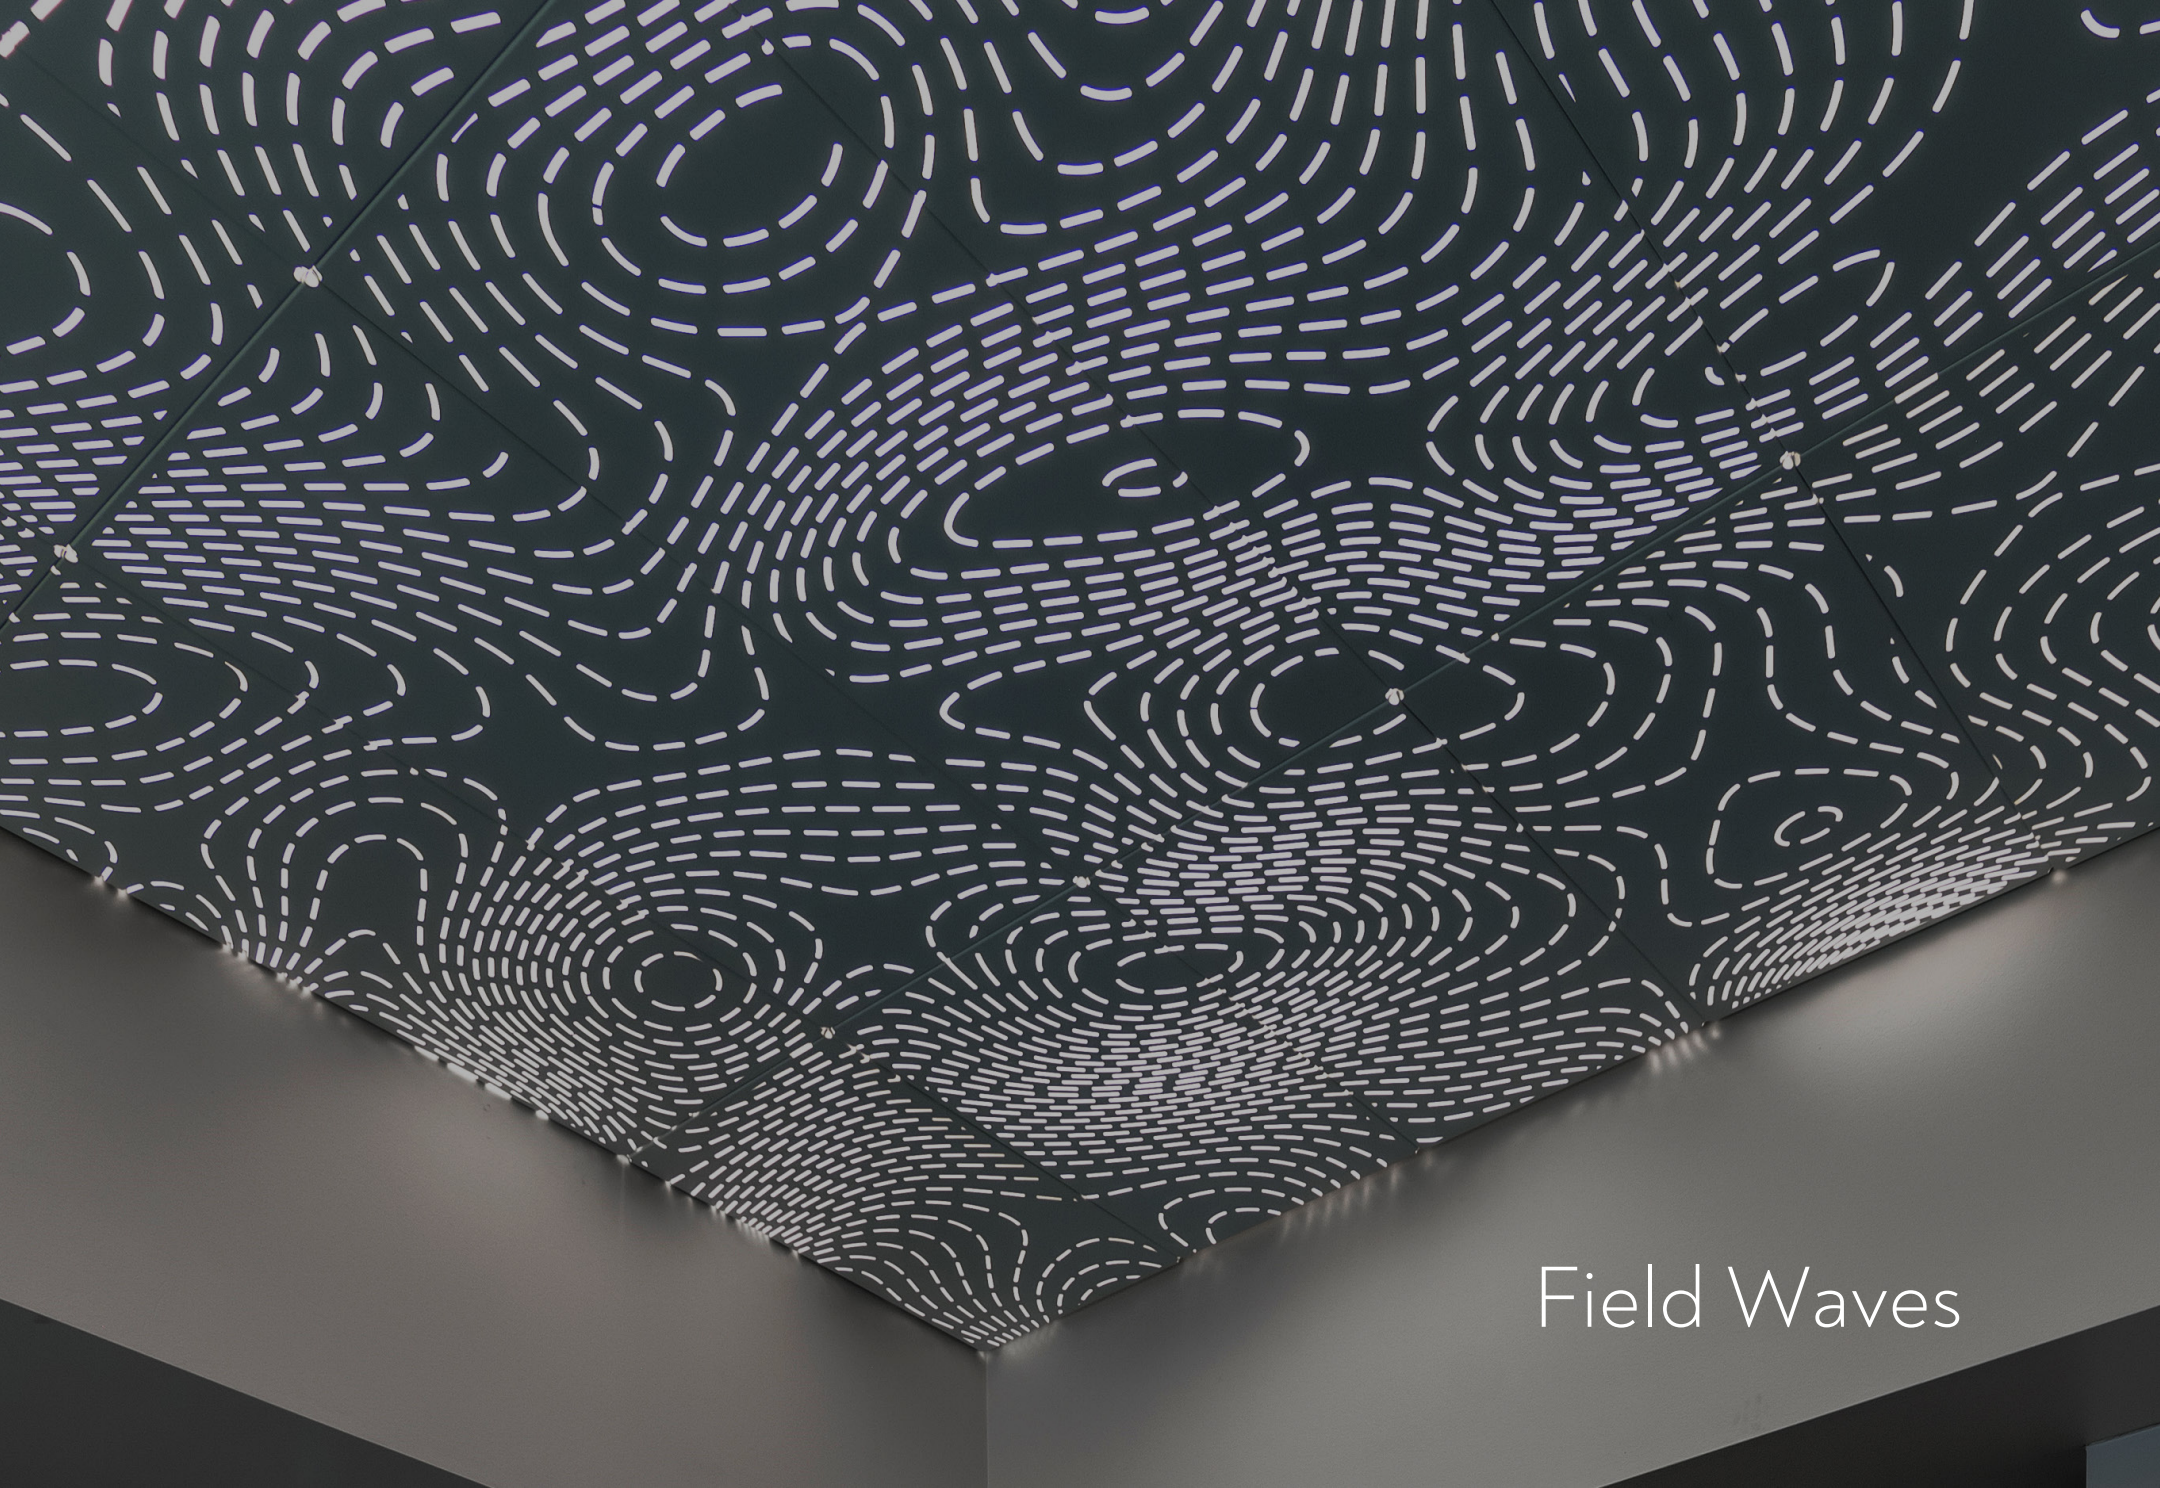

- ❖ Fast shop drawing turnaround time
- ❖ Custom 3-part spec
- ❖ 3D / Revit model
- ❖ Performance data
- ❖ Detailed installation & support information

A modern office interior featuring a large, curved wall and ceiling system made of perforated metal panels. The panels are arranged in a grid and feature a complex, white, abstract pattern that resembles a city map or a network of lines. The wall is illuminated from above, creating a soft glow. In the foreground, a dark wood reception desk is visible, with a man sitting behind it. To the left, there are shelves with books and a potted plant. To the right, a framed photograph of a city skyline is mounted on the wall.

PERFORATE

Metal Wall & Ceiling System

Field Waves

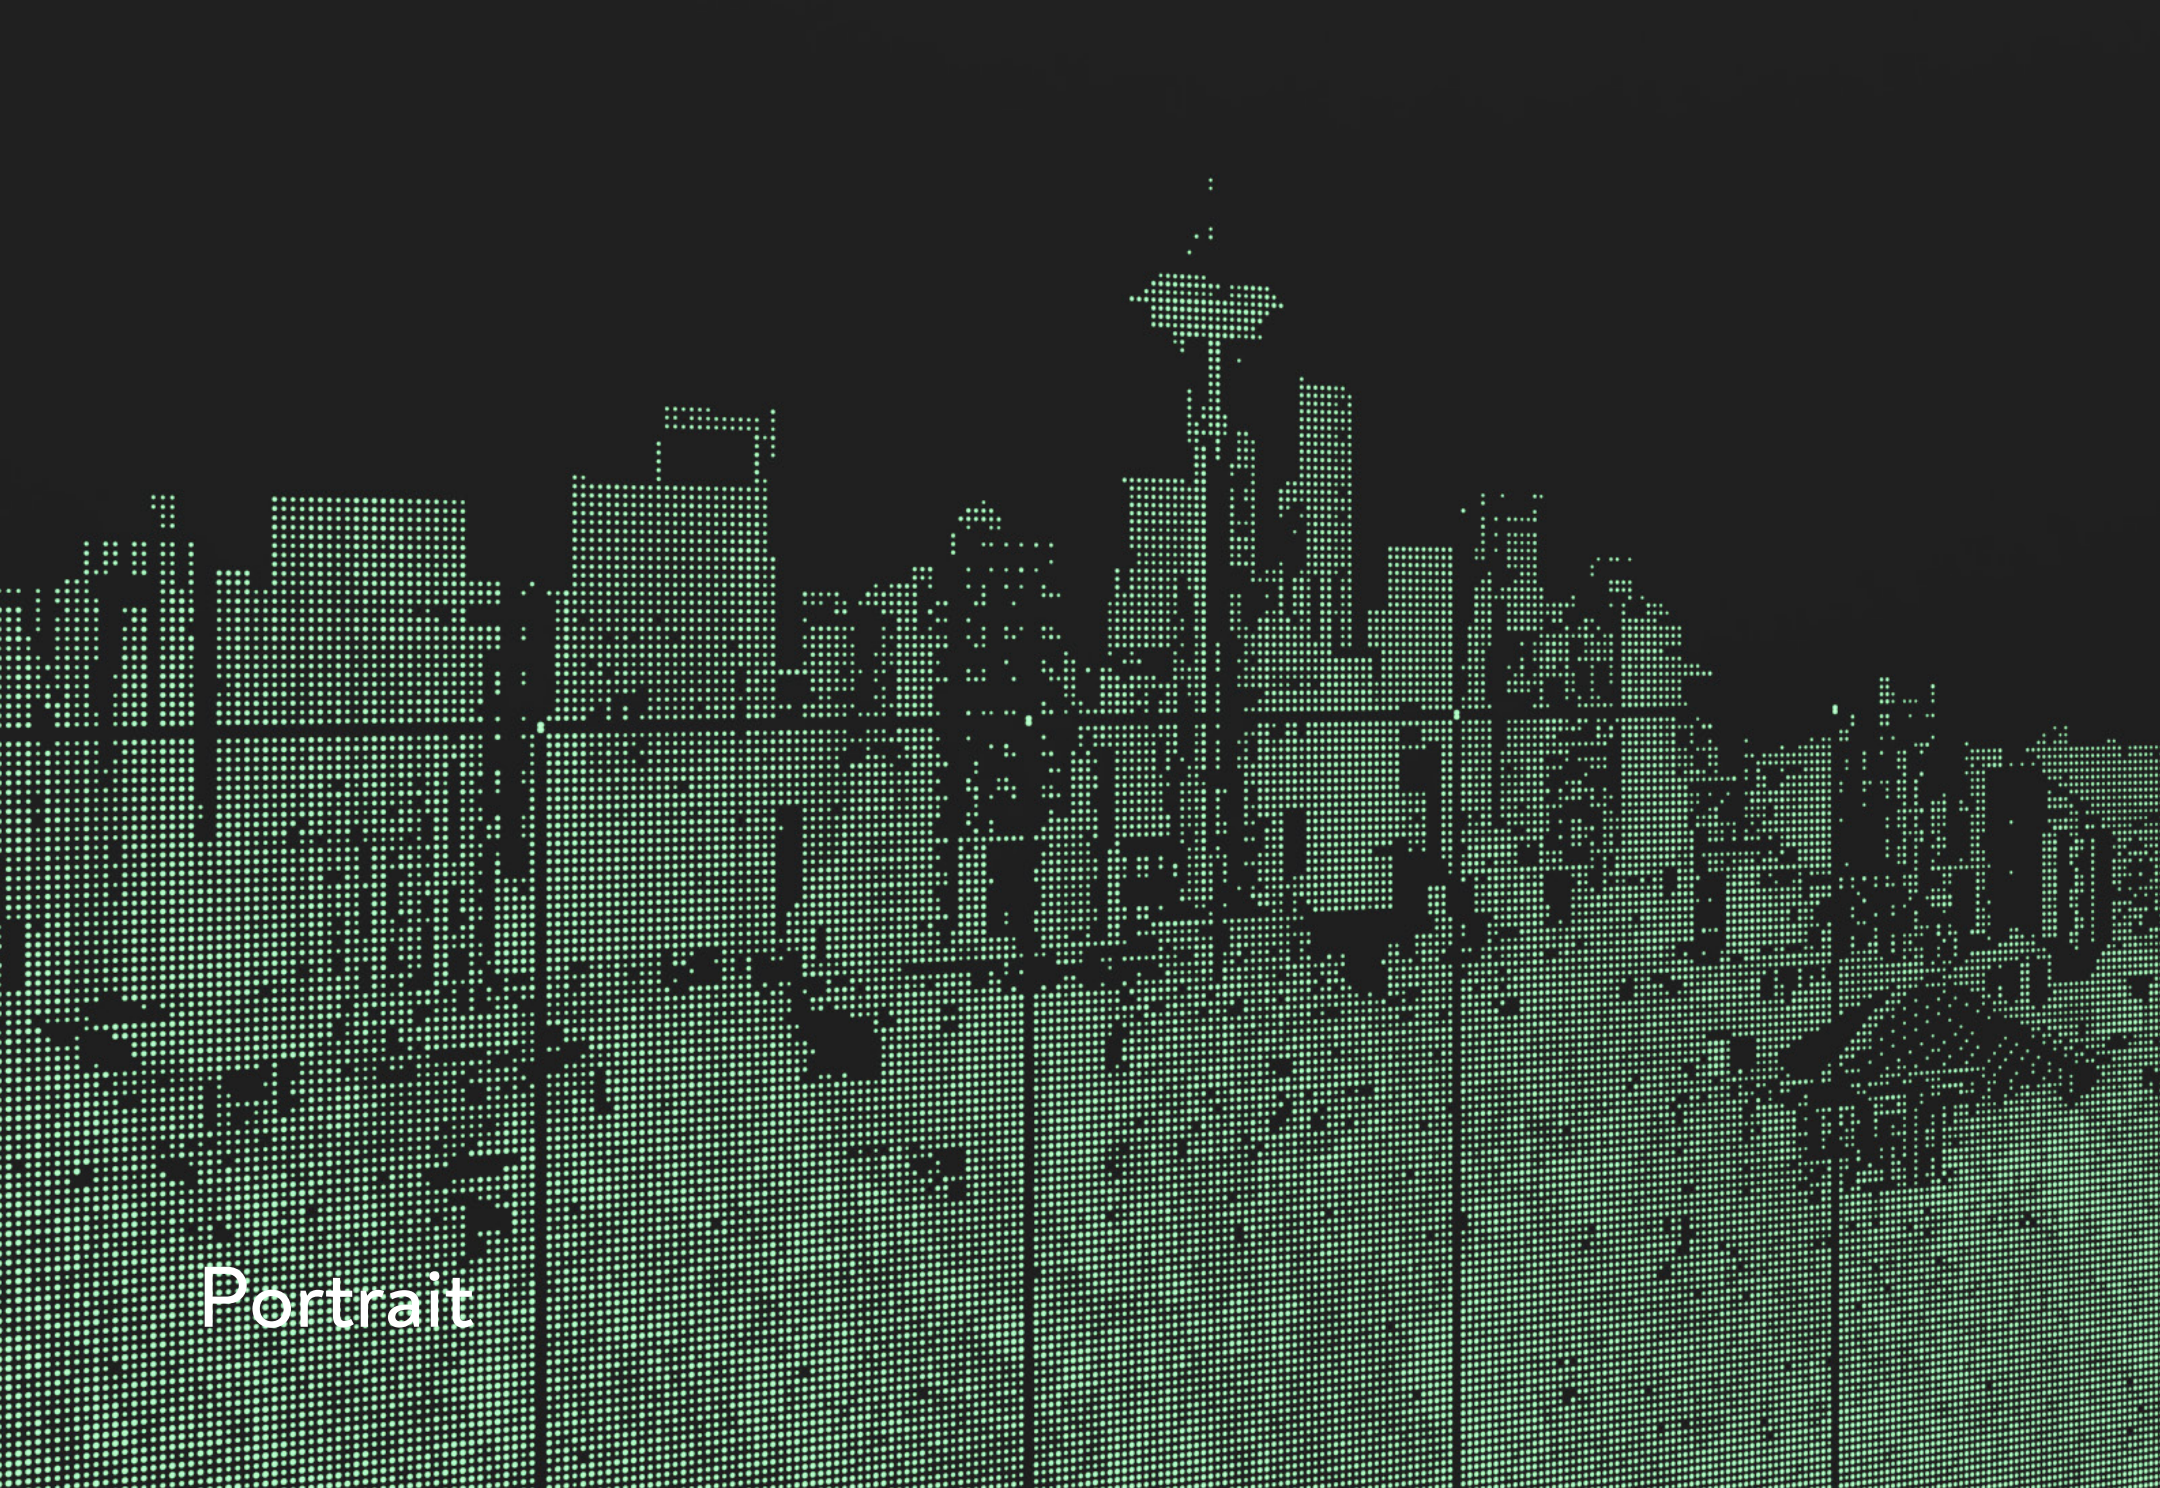

The background of the entire page is a grayscale halftone map of a city street grid. The map is composed of numerous small dots of varying density, creating a sense of depth and texture. In the center of the map, there is a solid dark gray circle. Inside this circle, the text "GFFdesign" is written in a white, sans-serif font. The text is positioned slightly to the right of the center of the circle.
