# AMERICAN MANUFACTURING: KEY TO OUR SUCCESS

At Andalusia Design, American manufacturing is not just a requirement – it's a principle.

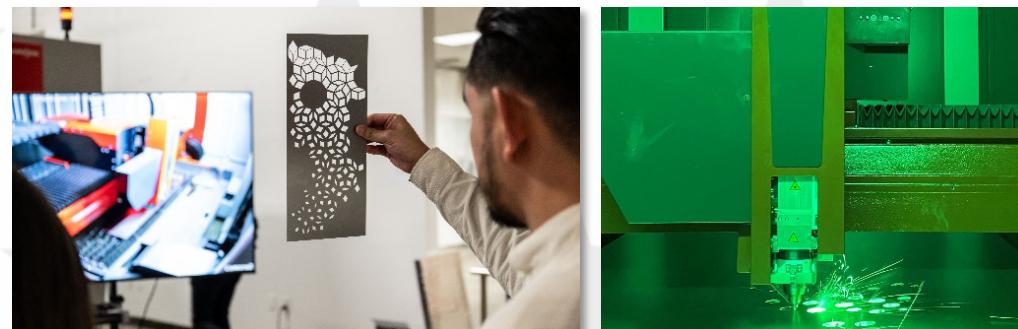

Our factory in Austin, Texas is the heart of our business: where design, craftsmanship, and innovation converge. Every part, system, and product detail reflects our commitment to quality, responsiveness, and domestic job creation.

## FACTORY CAPABILITIES

- In-house product, parametric and architectural designers
- CNC routing, laser cutting, staining & finishing all under one roof
- Scalable production of customizable wood, metal, and acoustic systems

## WHY AMERICAN-MADE MATTERS

- Fast lead times, improved quality, and quick adaptation to project needs
- Greater confidence in documentation, chain of custody, and sustainability
- Support local jobs and supply chains – and that makes better business sense

# BUILD AMERICA, BUY AMERICA (BABA) COMPLIANCE

Andalusia supports Build America Buy America (BABA) compliance across many of our material systems fabricated in our Austin, Texas facility.

For qualifying projects, we can provide full documentation for architects and contractors to support traceability through procurement and production.

---

## COMPLIANT MATERIALS AND SYSTEMS

### Aluminum-based systems

Fully BABA compliant. Sourced and fabricated in the United States.

### Wood-based solutions

Compliant when using domestically sourced veneer and core materials. Manufactured in our Austin facility.

### Custom fabrication

As a U.S. manufacturer, we can document traceability and compliance on qualifying projects from procurement through production.

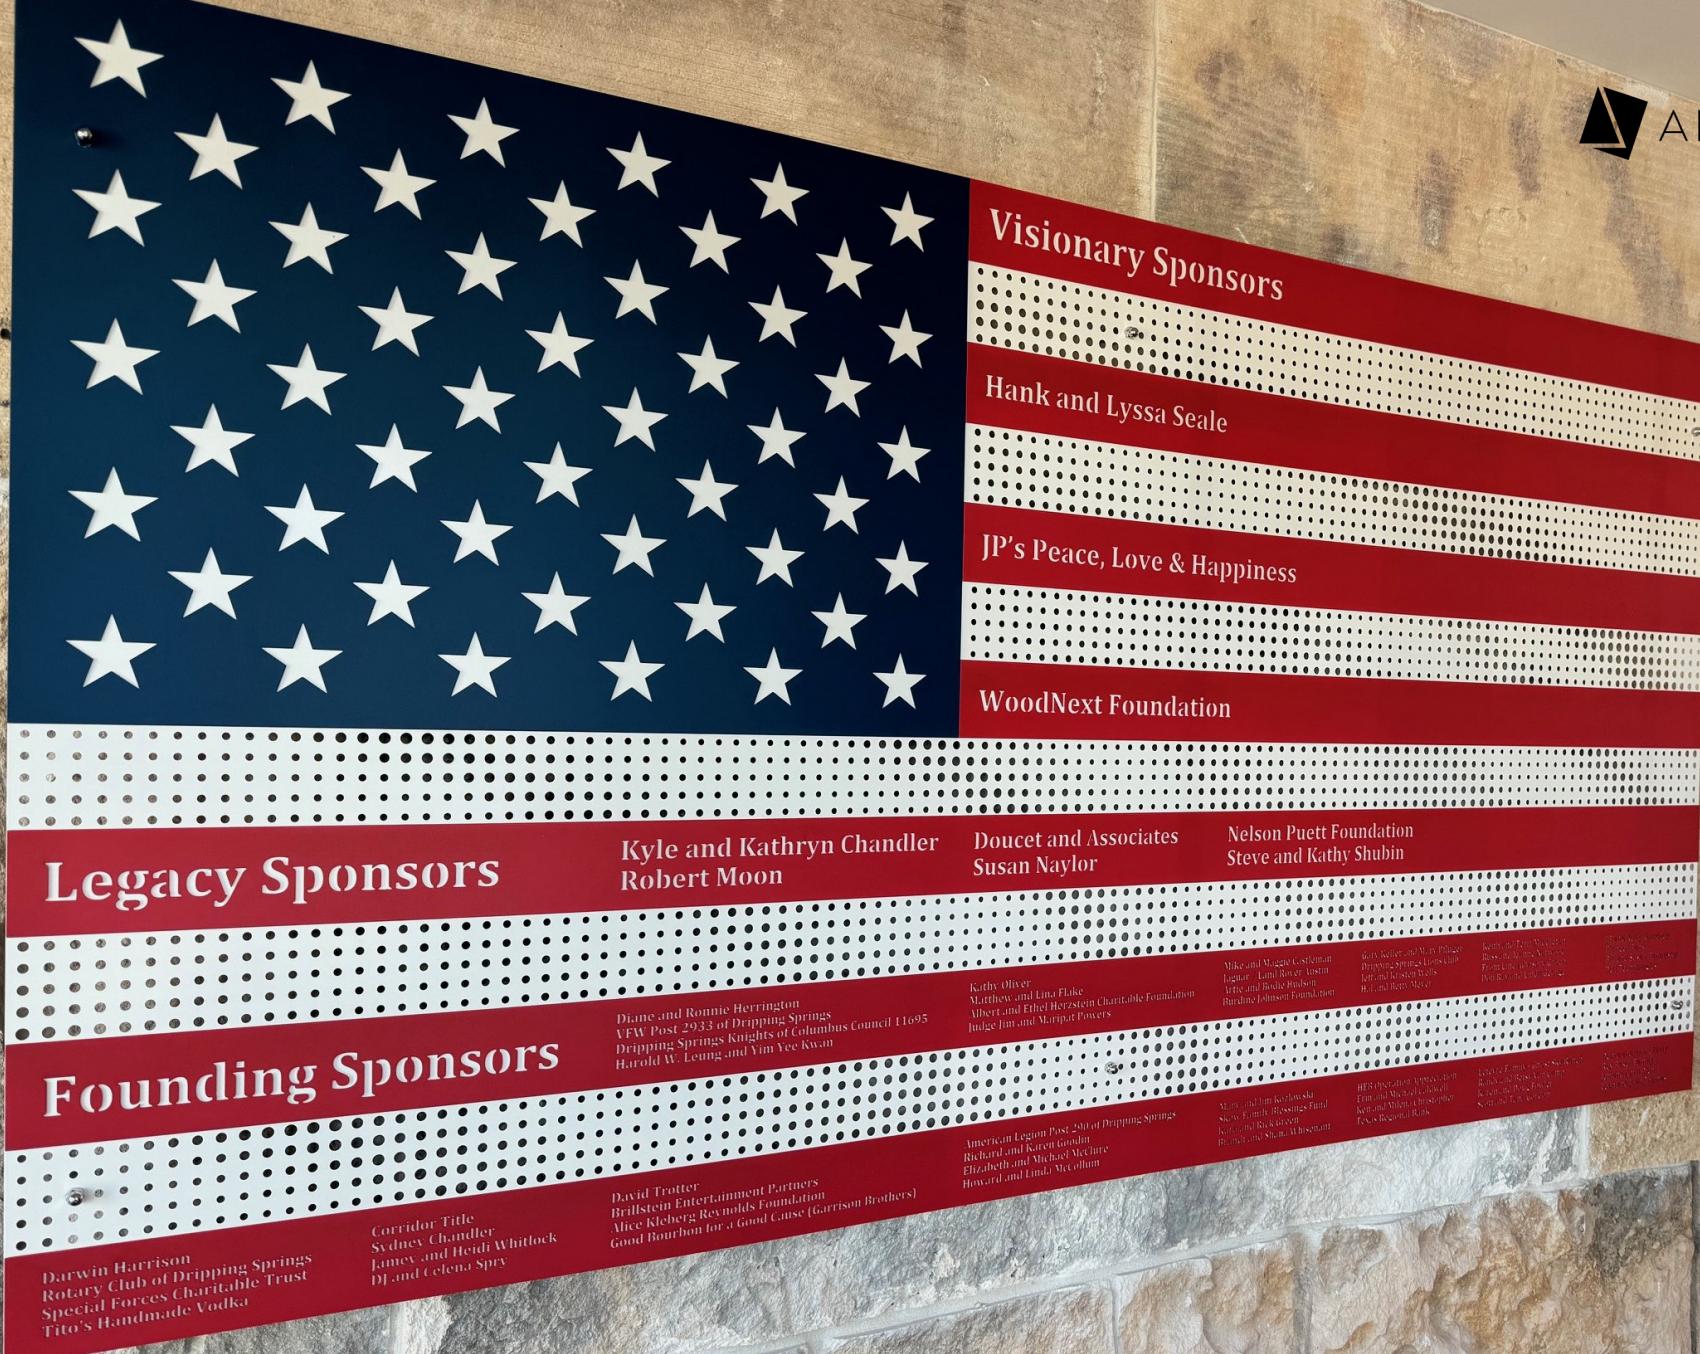

## HOW ANDALUSIA CAN SUPPORT YOU

### Project-Specific Compliance

Because we specialize in custom, project-specific solutions rather than standardized SKUs, we do not maintain a static database of BABA-approved model numbers.

We recommend flagging BABA requirements at the **onset of design or bid stage** so we can:

- Confirm compliant material sourcing.
- Maintain chain-of-custody documentation.
- Ensure traceability for any future audit or federal funding requirements.

Project: Donor Flag at Patriots Hall

Location: Dripping Springs, TX
